MAYOR'S OFFICE

Mayor Kevin White,

I am against busing because the parents might get worried about their child going so far. Be- suppose the bus broke down. It would be easier just to send the kids to a neighborhood school. And taxes will go up to pay the bus drivers.

You may say that they are trying to have 50-50% in the schools. Well suppose they don't want to come here?

But the most important reason of all is that in the Constitution there's a Bill of Rights. And in that it says that all men get the pursuit of happiness. That means that we can go to whatever school we wish to go to. And you can't go against the Con-

stitution,

 you see it is against the Con-
