MAYOR'S OFFICE

Dear Mayor

I am sorry to hear of the problem in Boston concerning black and white children going to school together.

I am a black mother I have a child a little girl being bus out to an all white school this year they havent ever had as much as a fight between the students. They got a long beautiful we havent had any little problems here behind busing, because our Mayor banned the demonstration that ~~can~~ was going to start. They ask all the parents to keep the children home every Friday of each month in October but we havent even did that. I dont think the parents could know about the Lord and if they do they are not bringing the children up in the way of his teaching because God says least his Son Jesus says ~~is~~ to love one another. How can you love God whom you have not seen and dont love your brother whom you have seen you can not do it unless we learn to treat others as we want to be treated our selves we can never succeed, because a house divided it cannot stand.

May God Bless you.
Yours truly
